The University of Faisalabad

SDG-WISE SUSTAINABILITY COURSES DIRECTORY

Comprehensive Academic Alignment with UN Sustainable Development Goals

1. EXECUTIVE SUMMARY

The University of Faisalabad integrates sustainability, environmental stewardship, and the United Nations Sustainable Development Goals (SDGs) across its academic curriculum. The institutional audit identifies **513 sustainability-related courses** out of 2,078 total courses university-wide, with **53 degree programmes** offering dedicated sustainability modules across 10 academic faculties.

513 / 2,078
Sustainability Courses
24.68% University-wide share

53 / 105
Degree Programmes
50.47% With sustainability modules

10
Academic Faculties
100% Comprehensive Coverage

2. FACULTY-WISE SUSTAINABILITY COURSE DISTRIBUTION

Academic Faculty	Courses	Faculty Share
Faculty of Medicine & Allied Health Sciences	**97**	18.9%
Faculty of Information Technology	**67**	13.1%
Faculty of Management Studies	**64**	12.5%
Faculty of Sciences	**56**	10.9%
Faculty of Arts & Social Sciences	**53**	10.3%
Faculty of Engineering & Technology	**48**	9.4%
Faculty of Pharmaceutical Sciences	**43**	8.4%
Faculty of Languages & Literature	**36**	7.0%
Faculty of Law	**35**	6.8%
Faculty of Education	**14**	2.7%

3. SDG-WISE COURSE DIRECTORY

The directory below reorganizes subjects based on institutional faculty SDG alignment. Where a faculty aligns with multiple SDGs, listed subjects appear under each respective SDG heading.

SDG 01 NO POVERTY

End poverty in all its forms everywhere

No faculty-level course alignment for this SDG is identified in the supplied source document.

SDG 02 ZERO HUNGER

Achieve food security and sustainable agriculture

Faculty of Sciences

56 sustainability courses

- Environmental Studies
- Sustainable Agriculture
- Biochemistry in Environmental Science
- Conservation Biology
- Soil and Water Conservation
- Physics of Renewable Energy
- Environmental Psychology
- Environmental Toxicology
- Organic Farming Techniques
- Biodiversity Conservation
- Forest and Wildlife Management
- Aquatic Ecosystems Management
- Science of Sustainable Agriculture
- Endangered Species Protection
- Urban Forestry
- Climate Change Adaptation
- Green Chemistry
- Microbial Ecology
- Biotechnology for Environmental Solutions
- Sustainable Food Systems
- Waste Biodegradation
- Urban Ecology
- Agroecology
- Water Quality Management
- Ecological Restoration
- Genomics in Conservation Biology
- Air Pollution and Control
- Ecology and Environmental Change
- Eco-friendly Pest Management

SDG 03 GOOD HEALTH & WELL-BEING

Ensure healthy lives and promote well-being

Faculty of Medicine & Allied Health Sciences

97 sustainability courses

- Environmental Health
- Health & Wellness
- Evidence-Based Practice
- Biostatistics for Health Sciences
- Preventive Care in Healthcare
- Emergency Procedures & Primary Care
- Pediatric Physical Therapy
- Mental Health and Well-being
- Cardiopulmonary Physical Therapy
- Advanced Health Informatics
- Chronic Disease Prevention
- Ethics in Healthcare Delivery
- Health Equity and Access
- Community Health Education
- Palliative and End-of-Life Care
- Community Medicine & Rehabilitation
- Patient Care and Safety
- Clinical Decision-Making
- Social and Administrative Pharmacy
- Epidemiology
- Prosthetics & Orthotics
- Gerontology & Geriatric Physical Therapy
- Global Health Initiatives
- Nutrition and Public Health
- Health Policy and Management
- Rural Health and Telemedicine
- Rehabilitation for Disability
- Women's Health and Wellness
- Infection Prevention and Control
- Social Media and Environmental Advocacy

Faculty of Pharmaceutical Sciences

43 sustainability courses

- Biostatistics
- Pharmacology and Therapeutics
- Community Pharmacy Practice
- Research Methods in Pharmacy
- Health and Wellness
- Pharmaceutical Policy and Economics
- Ethics in Pharmaceutical Practice
- Natural Products and Photochemistry
- Environmental Health & Safety
- Pharmaceutical Microbiology & Immunology
- Public Health Pharmacy
- Pharmaceutical Quality Management
- Sustainable Drug Development
- Global Health Pharmacology
- Medication Safety and Quality

SDG 04 QUALITY EDUCATION

Ensure inclusive and equitable quality education

Faculty of Education

14 sustainability courses

- Education for Sustainable Development
- Social and Emotional Learning
- Renewable Energy Law
- Educational Leadership in Sustainability
- Global Perspectives in Education
- Environmental Education Programs
- Public Policy in Education
- Digital Education for Sustainable Development
- Gender and Social Inclusion in Education
- Community-Based Education Programs
- Rural Education Development
- Inclusive Education
- Curriculum Development for Social Change
- Land Use and Zoning Law
- Research in Environmental Education
- Civic Education and Engagement
- Ethics in Education
- Lifelong Learning and Social Change
- School and Community Partnerships
- Education and Community Development
- Environmental Literacy

Faculty of Languages & Literature

36 sustainability courses

- Environmental Ethics in Literature
- Literature on Human Rights and Equality
- Communication for Sustainable Development
- Environmental Awareness in Media
- Storytelling for Social Change
- Social Justice in Literature
- Language and Environmental Advocacy
- Linguistics and Social Impact
- Cultural Studies and Social Justice
- Digital Media and Climate Advocacy

SDG 05 GENDER EQUALITY

Achieve gender equality and empower women

Faculty of Medicine & Allied Health Sciences

97 sustainability courses

- Environmental Health
- Health & Wellness
- Evidence-Based Practice
- Biostatistics for Health Sciences
- Preventive Care in Healthcare
- Emergency Procedures & Primary Care
- Pediatric Physical Therapy
- Mental Health and Well-being
- Cardiopulmonary Physical Therapy
- Advanced Health Informatics
- Chronic Disease Prevention
- Ethics in Healthcare Delivery
- Health Equity and Access
- Community Health Education
- Palliative and End-of-Life Care
- Community Medicine & Rehabilitation
- Patient Care and Safety
- Clinical Decision-Making
- Social and Administrative Pharmacy
- Epidemiology
- Prosthetics & Orthotics
- Gerontology & Geriatric Physical Therapy
- Global Health Initiatives
- Nutrition and Public Health
- Health Policy and Management
- Rural Health and Telemedicine
- Rehabilitation for Disability
- Women's Health and Wellness
- Infection Prevention and Control
- Social Media and Environmental Advocacy

SDG 06 CLEAN WATER & SANITATION

Ensure availability and sustainable management of water

Faculty of Engineering & Technology

48 sustainability courses

- Environmental Engineering
- Renewable Energy Systems
- Water Resources Engineering
- Energy Efficiency in Buildings
- Wastewater Treatment Technologies
- Project Management for Sustainability
- Engineering Ethics & Social Responsibility
- Recycling and Waste Management
- Advanced Thermodynamics in Energy Systems
- Geotechnical Engineering for Sustainability
- Nanotechnology for Clean Energy
- Heat Transfer for Renewable Energy
- Structural Dynamics for Natural Disasters
- Sustainable Infrastructure Development
- Environmental Pollution Control
- Sustainable Civil Engineering Practices
- Smart Grid Technology
- Environmental Impact Assessment
- Green Building Design
- Climate-Resilient Infrastructure
- Sustainable Materials Science
- Energy Storage Systems
- Sustainable Transportation Systems
- Design of Solar Power Systems
- Environmental Hydrology
- Waste Management Solutions
- Sustainable Urban Development
- Smart Materials for Sustainable Design
- Green Manufacturing Technologies
- Advanced Water Resource Management

Faculty of Medicine & Allied Health Sciences

97 sustainability courses

- Environmental Health
- Health & Wellness
- Evidence-Based Practice
- Biostatistics for Health Sciences
- Preventive Care in Healthcare
- Emergency Procedures & Primary Care
- Pediatric Physical Therapy
- Mental Health and Well-being
- Cardiopulmonary Physical Therapy
- Advanced Health Informatics
- Chronic Disease Prevention
- Ethics in Healthcare Delivery
- Health Equity and Access
- Community Health Education
- Palliative and End-of-Life Care
- Community Medicine & Rehabilitation
- Patient Care and Safety
- Clinical Decision-Making
- Social and Administrative Pharmacy
- Epidemiology
- Prosthetics & Orthotics
- Gerontology & Geriatric Physical Therapy
- Global Health Initiatives
- Nutrition and Public Health
- Health Policy and Management
- Rural Health and Telemedicine
- Rehabilitation for Disability
- Women's Health and Wellness
- Infection Prevention and Control
- Social Media and Environmental Advocacy

SDG 07 AFFORDABLE & CLEAN ENERGY

Ensure access to affordable, reliable energy

Faculty of Engineering & Technology

48 sustainability courses

- Environmental Engineering
- Renewable Energy Systems
- Water Resources Engineering
- Energy Efficiency in Buildings
- Wastewater Treatment Technologies
- Project Management for Sustainability
- Engineering Ethics & Social Responsibility
- Recycling and Waste Management
- Advanced Thermodynamics in Energy Systems
- Geotechnical Engineering for Sustainability
- Nanotechnology for Clean Energy
- Heat Transfer for Renewable Energy
- Structural Dynamics for Natural Disasters
- Sustainable Infrastructure Development
- Environmental Pollution Control
- Sustainable Civil Engineering Practices
- Smart Grid Technology
- Environmental Impact Assessment
- Green Building Design
- Climate-Resilient Infrastructure
- Sustainable Materials Science
- Energy Storage Systems
- Sustainable Transportation Systems
- Design of Solar Power Systems
- Environmental Hydrology
- Waste Management Solutions
- Sustainable Urban Development
- Smart Materials for Sustainable Design
- Green Manufacturing Technologies
- Advanced Water Resource Management

SDG 08 DECENT WORK & ECONOMIC GROWTH

Promote inclusive and sustainable economic growth

Faculty of Management Studies

64 sustainability courses

- Sustainable Business Practices
- Environmental Economics
- Business Ethics and Sustainability
- Marketing for Sustainable Development
- Healthcare Management
- Project Management for Sustainable Development
- Economic Policy for Climate Action
- Leadership in Social Responsibility
- Human Resource Development for Sustainability
- Ethics in Business and Governance
- Social Impact Investing
- Sustainable Urban Planning and Development
- Circular Economy and Waste Reduction
- Corporate Social Responsibility (CSR)
- Social Entrepreneurship
- Green Supply Chain Management
- Sustainable Finance
- International Relations and Global Sustainability
- Risk & Safety Management
- Innovation for Sustainability
- Sustainable Tourism Management
- Environmental Accounting
- Nonprofit Management
- Business Strategy and the Environment
- Water Resource Economics
- Social Media for CSR

SDG 09 — INDUSTRY, INNOVATION & INFRASTRUCTURE

Build resilient infrastructure and foster innovation

Faculty of Engineering & Technology

48 sustainability courses

- Environmental Engineering
- Renewable Energy Systems
- Water Resources Engineering
- Energy Efficiency in Buildings
- Wastewater Treatment Technologies
- Project Management for Sustainability
- Engineering Ethics & Social Responsibility
- Recycling and Waste Management
- Advanced Thermodynamics in Energy Systems
- Geotechnical Engineering for Sustainability
- Nanotechnology for Clean Energy
- Heat Transfer for Renewable Energy
- Structural Dynamics for Natural Disasters
- Sustainable Infrastructure Development
- Environmental Pollution Control
- Sustainable Civil Engineering Practices
- Smart Grid Technology
- Environmental Impact Assessment
- Green Building Design
- Climate-Resilient Infrastructure
- Sustainable Materials Science
- Energy Storage Systems
- Sustainable Transportation Systems
- Design of Solar Power Systems
- Environmental Hydrology
- Waste Management Solutions
- Sustainable Urban Development
- Smart Materials for Sustainable Design
- Green Manufacturing Technologies
- Advanced Water Resource Management

Faculty of Information Technology

67 sustainability courses

- Data Analysis for Social Good
- Sustainable Computing
- AI and Climate Science
- Smart Cities Technology
- Sustainable IT Systems Management
- Data Visualization for Social Impact
- Cybersecurity for Critical Infrastructures
- Technology in Disaster Response
- Green Computing and Energy Efficiency
- Digital Inclusion and Access
- Virtual Reality for Environmental Education
- Ethics in Data-Driven Decision-Making
- Environmental Modeling and Simulation
- IT for Energy Management
- Geographic Information Systems (GIS)
- Data Science for Environmental Studies
- Ethics in Computing and AI
- Blockchain for Sustainable Development
- Digital Solutions for Public Health
- IoT for Sustainability
- Machine Learning for Environmental Data
- Computational Sustainability
- Cloud Computing for Social Good
- Predictive Analytics for Environmental Change
- Remote Sensing for Climate Monitoring
- Environmental Data Management
- Wireless Sensor Networks for Environmental Monitoring
- Environmental Risk Assessment Tools

Faculty of Management Studies

64 sustainability courses

- Sustainable Business Practices
- Environmental Economics
- Business Ethics and Sustainability
- Marketing for Sustainable Development
- Healthcare Management
- Project Management for Sustainable Development
- Economic Policy for Climate Action
- Leadership in Social Responsibility
- Human Resource Development for Sustainability
- Ethics in Business and Governance
- Social Impact Investing
- Sustainable Urban Planning and Development
- Circular Economy and Waste Reduction
- Corporate Social Responsibility (CSR)
- Social Entrepreneurship
- Green Supply Chain Management
- Sustainable Finance
- International Relations and Global Sustainability
- Risk & Safety Management
- Innovation for Sustainability
- Sustainable Tourism Management
- Environmental Accounting
- Nonprofit Management
- Business Strategy and the Environment
- Water Resource Economics
- Social Media for CSR

SDG 10 REDUCED INEQUALITIES

Reduce inequality within and among countries

Faculty of Medicine & Allied Health Sciences

97 sustainability courses

- Environmental Health
- Health & Wellness
- Evidence-Based Practice
- Biostatistics for Health Sciences
- Preventive Care in Healthcare
- Emergency Procedures & Primary Care
- Pediatric Physical Therapy
- Mental Health and Well-being
- Community Medicine & Rehabilitation
- Patient Care and Safety
- Clinical Decision-Making
- Social and Administrative Pharmacy
- Epidemiology
- Prosthetics & Orthotics
- Gerontology & Geriatric Physical Therapy
- Global Health Initiatives

- Cardiopulmonary Physical Therapy
- Advanced Health Informatics
- Chronic Disease Prevention
- Ethics in Healthcare Delivery
- Health Equity and Access
- Community Health Education
- Palliative and End-of-Life Care
- Nutrition and Public Health
- Health Policy and Management
- Rural Health and Telemedicine
- Rehabilitation for Disability
- Women's Health and Wellness
- Infection Prevention and Control
- Social Media and Environmental Advocacy

Faculty of Arts & Social Sciences

53 sustainability courses

- Introduction to Environmental Science
- Islamic Sciences and Environmental Ethics
- Sociology of Development
- Media and Environmental Advocacy
- Interior Design for Sustainable Living
- Ethics in Art and Design
- Community-Based Art Programs
- Design for Public Spaces
- Cultural Heritage Conservation
- Arts for Environmental Change
- Social Impact of Design (Interior & Graphic Design)
- Community Service Learning
- Cultural Perspectives on Sustainability
- Human Geography and Sustainability
- Public Health Awareness Campaigns
- Social Change and Media
- Urban Sociology
- Visual Storytelling for Social Impact
- Participatory Design Practices

Faculty of Education

14 sustainability courses

- Education for Sustainable Development
- Social and Emotional Learning
- Renewable Energy Law
- Educational Leadership in Sustainability
- Global Perspectives in Education
- Environmental Education Programs
- Public Policy in Education
- Digital Education for Sustainable Development
- Gender and Social Inclusion in Education
- Community-Based Education Programs
- Rural Education Development
- Inclusive Education
- Curriculum Development for Social Change
- Land Use and Zoning Law
- Research in Environmental Education
- Civic Education and Engagement
- Ethics in Education
- Lifelong Learning and Social Change
- School and Community Partnerships
- Education and Community Development
- Environmental Literacy

SDG 11 — SUSTAINABLE CITIES & COMMUNITIES

Make cities inclusive, safe, resilient and sustainable

Faculty of Engineering & Technology

48 sustainability courses

- Environmental Engineering
- Renewable Energy Systems
- Water Resources Engineering
- Energy Efficiency in Buildings
- Wastewater Treatment Technologies
- Project Management for Sustainability
- Engineering Ethics & Social Responsibility
- Recycling and Waste Management
- Advanced Thermodynamics in Energy Systems
- Geotechnical Engineering for Sustainability
- Nanotechnology for Clean Energy
- Heat Transfer for Renewable Energy
- Structural Dynamics for Natural Disasters
- Sustainable Infrastructure Development
- Environmental Pollution Control
- Sustainable Civil Engineering Practices
- Smart Grid Technology
- Environmental Impact Assessment
- Green Building Design
- Climate-Resilient Infrastructure
- Sustainable Materials Science
- Energy Storage Systems
- Sustainable Transportation Systems
- Design of Solar Power Systems
- Environmental Hydrology
- Waste Management Solutions
- Sustainable Urban Development
- Smart Materials for Sustainable Design
- Green Manufacturing Technologies
- Advanced Water Resource Management

Faculty of Information Technology

67 sustainability courses

- Data Analysis for Social Good
- Sustainable Computing
- AI and Climate Science
- Smart Cities Technology
- Sustainable IT Systems Management
- Data Visualization for Social Impact
- Cybersecurity for Critical Infrastructures
- Technology in Disaster Response
- Green Computing and Energy Efficiency
- Digital Inclusion and Access
- Virtual Reality for Environmental Education
- Ethics in Data-Driven Decision-Making
- Environmental Modeling and Simulation
- IT for Energy Management
- Geographic Information Systems (GIS)
- Data Science for Environmental Studies
- Ethics in Computing and AI
- Blockchain for Sustainable Development
- Digital Solutions for Public Health
- IoT for Sustainability
- Machine Learning for Environmental Data
- Computational Sustainability
- Cloud Computing for Social Good
- Predictive Analytics for Environmental Change
- Remote Sensing for Climate Monitoring
- Environmental Data Management
- Wireless Sensor Networks for Environmental Monitoring
- Environmental Risk Assessment Tools

Faculty of Arts & Social Sciences

53 sustainability courses

- Introduction to Environmental Science
- Islamic Sciences and Environmental Ethics
- Sociology of Development
- Media and Environmental Advocacy
- Interior Design for Sustainable Living
- Ethics in Art and Design
- Community-Based Art Programs
- Design for Public Spaces
- Cultural Heritage Conservation
- Social Impact of Design (Interior & Graphic Design)
- Community Service Learning
- Cultural Perspectives on Sustainability
- Human Geography and Sustainability
- Public Health Awareness Campaigns
- Social Change and Media
- Urban Sociology
- Visual Storytelling for Social Impact
- Participatory Design Practices

- Arts for Environmental Change

SDG 12 — RESPONSIBLE CONSUMPTION & PRODUCTION

Ensure sustainable consumption patterns

Faculty of Engineering & Technology

48 sustainability courses

- Environmental Engineering
- Renewable Energy Systems
- Water Resources Engineering
- Energy Efficiency in Buildings
- Wastewater Treatment Technologies
- Project Management for Sustainability
- Engineering Ethics & Social Responsibility
- Recycling and Waste Management
- Advanced Thermodynamics in Energy Systems
- Geotechnical Engineering for Sustainability
- Nanotechnology for Clean Energy
- Heat Transfer for Renewable Energy
- Structural Dynamics for Natural Disasters
- Sustainable Infrastructure Development
- Environmental Pollution Control
- Sustainable Civil Engineering Practices
- Smart Grid Technology
- Environmental Impact Assessment
- Green Building Design
- Climate-Resilient Infrastructure
- Sustainable Materials Science
- Energy Storage Systems
- Sustainable Transportation Systems
- Design of Solar Power Systems
- Environmental Hydrology
- Waste Management Solutions
- Sustainable Urban Development
- Smart Materials for Sustainable Design
- Green Manufacturing Technologies
- Advanced Water Resource Management

Faculty of Management Studies

64 sustainability courses

- Sustainable Business Practices
- Environmental Economics
- Business Ethics and Sustainability
- Marketing for Sustainable Development
- Healthcare Management
- Project Management for Sustainable Development
- Economic Policy for Climate Action
- Leadership in Social Responsibility
- Human Resource Development for Sustainability
- Ethics in Business and Governance
- Social Impact Investing
- Sustainable Urban Planning and Development
- Circular Economy and Waste Reduction
- Corporate Social Responsibility (CSR)
- Social Entrepreneurship
- Green Supply Chain Management
- Sustainable Finance
- International Relations and Global Sustainability
- Risk & Safety Management
- Innovation for Sustainability
- Sustainable Tourism Management
- Environmental Accounting
- Nonprofit Management
- Business Strategy and the Environment
- Water Resource Economics
- Social Media for CSR

Faculty of Pharmaceutical Sciences

43 sustainability courses

- Biostatistics
- Pharmacology and Therapeutics
- Community Pharmacy Practice
- Research Methods in Pharmacy
- Health and Wellness
- Pharmaceutical Policy and Economics
- Ethics in Pharmaceutical Practice
- Natural Products and Photochemistry
- Environmental Health & Safety
- Pharmaceutical Microbiology & Immunology
- Public Health Pharmacy
- Pharmaceutical Quality Management
- Sustainable Drug Development
- Global Health Pharmacology
- Medication Safety and Quality

SDG 13 CLIMATE ACTION

Take urgent action to combat climate change

Faculty of Information Technology

67 sustainability courses

- Data Analysis for Social Good
- Sustainable Computing
- AI and Climate Science
- Smart Cities Technology
- Sustainable IT Systems Management
- Data Visualization for Social Impact
- Cybersecurity for Critical Infrastructures
- Technology in Disaster Response
- Green Computing and Energy Efficiency
- Digital Inclusion and Access
- Virtual Reality for Environmental Education
- Ethics in Data-Driven Decision-Making
- Environmental Modeling and Simulation
- IT for Energy Management
- Geographic Information Systems (GIS)
- Data Science for Environmental Studies
- Ethics in Computing and AI
- Blockchain for Sustainable Development
- Digital Solutions for Public Health
- IoT for Sustainability
- Machine Learning for Environmental Data
- Computational Sustainability
- Cloud Computing for Social Good
- Predictive Analytics for Environmental Change
- Remote Sensing for Climate Monitoring
- Environmental Data Management
- Wireless Sensor Networks for Environmental Monitoring
- Environmental Risk Assessment Tools

Faculty of Management Studies

64 sustainability courses

- Sustainable Business Practices
- Environmental Economics
- Business Ethics and Sustainability
- Marketing for Sustainable Development
- Healthcare Management
- Project Management for Sustainable Development
- Economic Policy for Climate Action
- Leadership in Social Responsibility
- Human Resource Development for Sustainability
- Ethics in Business and Governance
- Social Impact Investing
- Sustainable Urban Planning and Development
- Corporate Social Responsibility (CSR)
- Social Entrepreneurship
- Green Supply Chain Management
- Sustainable Finance
- International Relations and Global Sustainability
- Risk & Safety Management
- Innovation for Sustainability
- Sustainable Tourism Management
- Environmental Accounting
- Nonprofit Management
- Business Strategy and the Environment
- Water Resource Economics

- Circular Economy and Waste Reduction
- Social Media for CSR

Faculty of Sciences

56 sustainability courses

- Environmental Studies
- Sustainable Agriculture
- Biochemistry in Environmental Science
- Conservation Biology
- Soil and Water Conservation
- Physics of Renewable Energy
- Environmental Psychology
- Environmental Toxicology
- Organic Farming Techniques
- Biodiversity Conservation
- Forest and Wildlife Management
- Aquatic Ecosystems Management
- Science of Sustainable Agriculture
- Endangered Species Protection
- Urban Forestry
- Climate Change Adaptation
- Green Chemistry
- Microbial Ecology
- Biotechnology for Environmental Solutions
- Sustainable Food Systems
- Waste Biodegradation
- Urban Ecology
- Agroecology
- Water Quality Management
- Ecological Restoration
- Genomics in Conservation Biology
- Air Pollution and Control
- Ecology and Environmental Change
- Eco-friendly Pest Management

Faculty of Law

35 sustainability courses

- Environmental Law
- Law and Social Justice
- Islamic Jurisprudence and Environmental Stewardship
- Community-Based Legal Practice
- Policy Advocacy and Social Justice
- Water Rights Law
- Land Use and Zoning Law
- Biodiversity and Conservation Law
- Ethics in Legal Practice
- Human Rights Law
- International Environmental Policies
- Ethics in Criminology
- Law and Governance for Sustainability
- Corporate Law and Environmental Compliance
- Renewable Energy Law
- Climate Change Law
- Public Health Law
- Comparative Environmental Law

Faculty of Education

14 sustainability courses

- Education for Sustainable Development
- Social and Emotional Learning
- Renewable Energy Law
- Educational Leadership in Sustainability
- Global Perspectives in Education
- Environmental Education Programs
- Public Policy in Education
- Digital Education for Sustainable Development
- Gender and Social Inclusion in Education
- Community-Based Education Programs
- Rural Education Development
- Inclusive Education
- Curriculum Development for Social Change
- Land Use and Zoning Law
- Research in Environmental Education
- Civic Education and Engagement
- Ethics in Education
- Lifelong Learning and Social Change
- School and Community Partnerships
- Education and Community Development
- Environmental Literacy

Faculty of Languages & Literature

36 sustainability courses

- Environmental Ethics in Literature
- Literature on Human Rights and Equality
- Communication for Sustainable Development
- Environmental Awareness in Media
- Storytelling for Social Change
- Social Justice in Literature
- Language and Environmental Advocacy
- Linguistics and Social Impact
- Cultural Studies and Social Justice
- Digital Media and Climate Advocacy

SDG 14 LIFE BELOW WATER

Conserve and sustainably use oceans and marine resources

Faculty of Sciences

56 sustainability courses

- Environmental Studies
- Sustainable Agriculture
- Biochemistry in Environmental Science
- Conservation Biology
- Soil and Water Conservation
- Physics of Renewable Energy
- Environmental Psychology
- Environmental Toxicology
- Organic Farming Techniques
- Biodiversity Conservation
- Forest and Wildlife Management
- Aquatic Ecosystems Management
- Science of Sustainable Agriculture
- Endangered Species Protection
- Urban Forestry
- Climate Change Adaptation
- Green Chemistry
- Microbial Ecology
- Biotechnology for Environmental Solutions
- Sustainable Food Systems
- Waste Biodegradation
- Urban Ecology
- Agroecology
- Water Quality Management
- Ecological Restoration
- Genomics in Conservation Biology
- Air Pollution and Control
- Ecology and Environmental Change
- Eco-friendly Pest Management

SDG 15 LIFE ON LAND

Protect, restore and promote sustainable terrestrial ecosystems

Faculty of Sciences

56 sustainability courses

- Environmental Studies
- Sustainable Agriculture
- Biochemistry in Environmental Science
- Conservation Biology
- Soil and Water Conservation
- Physics of Renewable Energy
- Environmental Psychology
- Environmental Toxicology
- Organic Farming Techniques
- Biodiversity Conservation
- Forest and Wildlife Management
- Aquatic Ecosystems Management
- Climate Change Adaptation
- Green Chemistry
- Microbial Ecology
- Biotechnology for Environmental Solutions
- Sustainable Food Systems
- Waste Biodegradation
- Urban Ecology
- Agroecology
- Water Quality Management
- Ecological Restoration
- Genomics in Conservation Biology
- Air Pollution and Control

- Science of Sustainable Agriculture
- Ecology and Environmental Change
- Endangered Species Protection
- Eco-friendly Pest Management
- Urban Forestry

Faculty of Law

35 sustainability courses

- Environmental Law
- Human Rights Law
- Law and Social Justice
- International Environmental Policies
- Islamic Jurisprudence and Environmental Stewardship
- Ethics in Criminology
- Community-Based Legal Practice
- Law and Governance for Sustainability
- Policy Advocacy and Social Justice
- Corporate Law and Environmental Compliance
- Water Rights Law
- Renewable Energy Law
- Land Use and Zoning Law
- Climate Change Law
- Biodiversity and Conservation Law
- Public Health Law
- Ethics in Legal Practice
- Comparative Environmental Law

SDG 16 PEACE, JUSTICE & STRONG INSTITUTIONS

Promote peaceful and inclusive societies

Faculty of Law

35 sustainability courses

- Environmental Law
- Human Rights Law
- Law and Social Justice
- International Environmental Policies
- Islamic Jurisprudence and Environmental Stewardship
- Ethics in Criminology
- Community-Based Legal Practice
- Law and Governance for Sustainability
- Policy Advocacy and Social Justice
- Corporate Law and Environmental Compliance
- Water Rights Law
- Renewable Energy Law
- Land Use and Zoning Law
- Climate Change Law
- Biodiversity and Conservation Law
- Public Health Law
- Ethics in Legal Practice
- Comparative Environmental Law

Faculty of Arts & Social Sciences

53 sustainability courses

- Introduction to Environmental Science
- Social Impact of Design (Interior & Graphic Design)
- Islamic Sciences and Environmental Ethics
- Community Service Learning
- Sociology of Development
- Cultural Perspectives on Sustainability
- Media and Environmental Advocacy
- Human Geography and Sustainability
- Interior Design for Sustainable Living
- Public Health Awareness Campaigns
- Ethics in Art and Design
- Social Change and Media
- Community-Based Art Programs
- Urban Sociology
- Design for Public Spaces
- Visual Storytelling for Social Impact
- Cultural Heritage Conservation
- Participatory Design Practices
- Arts for Environmental Change

Faculty of Languages & Literature

36 sustainability courses

- Environmental Ethics in Literature
- Literature on Human Rights and Equality
- Communication for Sustainable Development
- Environmental Awareness in Media
- Storytelling for Social Change
- Social Justice in Literature
- Language and Environmental Advocacy
- Linguistics and Social Impact
- Cultural Studies and Social Justice
- Digital Media and Climate Advocacy

SDG 17 PARTNERSHIPS FOR THE GOALS

Strengthen global partnerships for sustainable development

No faculty-level course alignment for this SDG is identified in the supplied source document.

4. METHODOLOGICAL NOTE & SOURCE ALIGNMENT

This directory is based on institutional reporting source 17.4.2. The source identifies SDG targets at faculty level and provides faculty course lists; it does not assign every individual course to a single SDG. Accordingly, course listings are grouped under the SDGs associated with each faculty in the source. A course may therefore appear under more than one SDG.

The detailed course lists are representative listings of the total 513 sustainability-related courses mapped across 105 university-wide degree programmes.
